

EVATEST

DESCRIPTION

Evatest is a pregnancy test you can use privately, starting a day before the estimated date of menstruation. It uses urine from any time of the day (with a minimum retention of 3 hours).

Evatest can tell you in just 3 minutes whether you are pregnant or not, with complete reliability.

EACH BOX CONTAINS

- 1 airtight aluminium wrapper containing 1 reactive strip (for 1 test) and 1 desiccant sachet that is not used for the test.
- 1 container for collecting the urine
- Instruction manual.

The product may only be used once and must be discarded after use.
